Experience

evozon	March 2022 - Present
Front End Developer SAP Hybris (Commerce Cloud)	Cluj-Napoca, Romania
https://www.evozon.com/	

Working as a Front End Developer with SAP Hybris developing large and scalable e-commerce websites both for B2B and B2C clients. Notable accomplishments can be found below

Project #5 Major Home Improvement and Construction Retailer in Romania

- Upgraded project tooling by transitioning from ES5 to ES6, enabling cleaner syntax and modern development practices.
- Boosted website performance by implementing an SVG sprite sheet, reducing HTTP requests and optimizing load times.
- Refactored the checkout process to enhance performance, streamline user experience, and improve maintainability.
- Integrated EasyBox functionality, providing users with a more convenient and flexible delivery option.

Projects #2, #3, and #4: Leading Online Tire Retailer in the U.S. and Its Variants

- Contributed as a key member of the front-end redesign team, implementing a modernized interface for the homepage, product detail page (PDP), and product listing page (PLP).
- Delivered the redesign, as well as its specialized variants within tight deadlines.
- Worked closely with designers and backend teams to ensure a seamless integration of the updated visual and functional framework.
- Enhanced user experience by optimizing page responsiveness and improving load times across all devices.

Project #1: B2B Platform for a Major Home Improvement and Construction Retailer in Romania

- Upgraded project tooling by transitioning from ES5 to ES6, adopting modern development practices for improved code maintainability and performance.
- Enhanced the checkout process to accommodate bulk order functionalities and streamline purchase workflows.
- Worked on the integration of the PayU payment system, ensuring a seamless and secure payment experience on the front end.

PFA Ghirasim Daniel	December 2019 - Present
Freelancer	Remote
https://www.danielghirasim.com	

As a freelancer, I’ve worked on a diverse range of projects, combining automation, data scraping, AI, and modern web development to deliver awesome results to my clients. Here are a few notable ones.

#1 CautPeleti.ro – Find the Best Pellet Prices

- Platform created with with Next.js for users to compare prices of wooden pellets from various sellers, with prices scraped dynamically from the internet.
- Added features like price simulation, viewing historical price trends, reviews, admin panel for managing reviews, sellers and much more
- Website arhitedcted from scratch by myself using the latest NextJS version (15+) using the newest tech and tools like: Server Actions, Server Comonents, Typescript, TailwindCSS , Supabase (for BE), Auth (Mail, Google and Facebook), PostgreSQL for DB, Sentry for error tracking, Vercel Analytics, Brevo for email sending and much more

#2 WhatsApp-to-WordPress Automation for a News Outlet in Romania

- Developed a system to automate the publication of news received via WhatsApp directly to a WordPress website.
- Enabled editors to use WhatsApp commands for drafting articles effortlessly.
- Incorporated AI to generate summaries and optimize content formatting for a professional presentation.

#3 WildOasis – Boutique Hotel Website and Admin Dashboard (From Jonas Schmedtmann's React Course)

- As part of Jonas Schmedtmann’s React course, I developed a hotel website allowing users to create accounts and manage bookings, including adding, editing, and canceling reservations.
- Created a fully functional admin dashboard for hotel staff to manage bookings, cabins, and guest approvals.
- Implemented features like image uploads, guest tracking, and detailed statistics on bookings and revenue.
- Used Supabase to implement databases, storage buckets and e-mail functionality
- Implemented OAuth authentication with NextAuth to allow users to securely log in and manage their profiles and bookings.

Celestica	August 2019 - March 2022
Operations / SMT Planner	Oradea, Romania
https://www.celestica.com/	

Started as SMT Planner which consisted in planning and allocating resources between the various SMT lines of the factory.

Later transition into Operations Planner where my job was creating/monitoring production orders and insertion lines planning.

Zollner Electronic Satu Mare	March 2019 - August 2019
Production/Demand Planner	Satu Mare, Romania
https://www.zollner.ro/	

Planning , Launching and Tracking Production orders and also adjusting production according to weekly demand from customers.

S.C. EUROSPED S.R.L.	November 2018 - May 2019
Transport Manager	Satu Mare, Romania

Coordinating a fleet of over 30 vehicles which were dispatched 24/7 to assure road safety during winter season in Satu Mare County.

RFW Logistic SRL	July 2013 - June 2016
Transport Manager	Satu Mare, Romania

Coordinating and Tracking transport vehicles from our company fleet accross Europe.
